

# ComRes provides Cabling for Phones, Computers, WiFi, and Surveillance

## CAT 5E VS. CAT 6 CABLING

You may not understand whether you need Cat 5e, Cat 6, Cat 6a, Plenum (low smoke) or PVC cabling. ComRes engineers will help you understand the technologies available and how to choose the best one for your business.

## FIBER OPTIC SOLUTIONS

ComRes has several options for multi-mode or single mode fiber solutions for your business. Many businesses now install fiber for high-bandwidth needs or where they must extend their data networks beyond the limitations of normal structured cabling.

## OTHER CABLE TECHNOLOGIES

You may not understand whether you need Cat 5e, Cat 6, Cat 6a, Plenum (low smoke) or PVC cabling. ComRes engineers will help you understand the technologies available and how to choose the best one for your business.
